

Technology Improvements at St. Francis High School

St. Francis High School Receives \$50,000 Grant from the William H. Hannon Foundation

Santa Monica, CA (May, 2013)—St. Francis High School, an all-boys Catholic college preparatory school in La Canada-Flintridge has received a \$50,000 grant from the William H. Hannon Foundation to support the high school's "Innovations in Education Capital Campaign" to fund technology improvements. The major component of the campaign is to fund a new classroom wing, which will include three state-of-the-art classrooms with interactive white boards, multi-media podiums with screens, sound system, video and document camcorders and portable carts with iPads for classroom use.

"Our Foundation's treasurer, Jim Hannon, my son Brian, as well as William H. Hannon each attended all-boys Catholic high schools. The Foundation understands the value that this kind of educational environment provides and we are pleased to support St. Francis High School's capital campaign to bring technology improvements to campus," said Kathleen Hannon Aikenhead, President of the William H. Hannon Foundation.
